GOLD AND SHARR.

Although the Territory of Arizona has hitherta achieved its chief reputation abroad through the extent and richness of its precions metals, the tall'in this respect has never yet been told. The Territory is ribbed from North to South and from East to West with mountain spars from the Rocky Mountain range, and in each one of these spure, wherever it has been thoroughly prospected, same one or more of the precions metals has been found. At lirst, when silver bullion sold for from \$1.20 to \$1.30 an onace, the principal industry of Arizonn was silver mining, and gold was but little sought for. Those were indeed "flush
